All stock have been evaluated for structural soundness and fertility and to the best of our knowledge the bulls are in sound working order at the time of the sale. Any claim against a structural breakdown of any animal must be made in writing and accompanied by a veterinary certificate within 12 months of the sale date. Any bull failing to breed when joined at a single mating within six months of the sale may be either replaced with an animal of similar purchase value or credit made available to the value of the purchase price, minus salvage value, for use at a future sale. The purchaser will be responsible for any costs incurred.

Delivery

Stock awaiting delivery will be held free of charge - all care taken, but absolutely no responsibility will be accepted for any injury or loss considered during, as a consequence of or in relation to any holding. We recommend purchases insure their bulls at conclusion of sale.

Rebate

A 4% rebate will be offered to outside agents.

DNA

All bulls have been DNA tested and parent verified.

Please note that there won't be a printed catalogue posted out.

Contact us if you would like a catalogue emailed to you or require any help.
